For the three and six months to 30 June 2018 and 2017 - (Unaudited)

ATALAYA MINING PLC MANAGEMENT'S REVIEW AND CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS 30 June 2018 (UNAUDITED)

Notice to Reader

The accompanying unaudited, condensed, interim consolidated financial statements of Atalaya Mining Plc have been prepared by and are the responsibility of Atalaya Mining Plc's management. The unaudited, condensed, interim consolidated financial statements have not been reviewed by Atalaya's auditors.

Introduction

This report provides an overview and analysis of the financial results of operations of Atalaya Mining Plc and its subsidiaries ("Atalaya" and/or "Group"), to enable the reader to assess material changes in the financial position between 31 December 2017 and 30 June 2018 and results of operations for the three and six months ended 30 June 2018 and 2017.

This report has been prepared as of 12 September 2018. The analysis, hereby included, is intended to supplement and complement the unaudited, condensed, interim consolidated financial statements and notes thereto ("Financial Statements") as at and for the three and six months ended 30 June 2018. The reader should review the Financial Statements in conjunction with the review of this report and with the audited, consolidated financial statements for the year ended 31 December 2017, and the unaudited, condensed interim consolidated financial statements for the three and six months ended 30 June 2017. These documents can be found on Atalaya's website at www.atalayamining.com.

Atalaya prepares its Financial Statements in accordance with International Financial Reporting Standards ("IFRSs"). The currency referred to in this document is the Euro, unless otherwise specified.

Forward-looking statements

This report may include certain "forward-looking statements" and "forward-looking information" under applicable securities laws. Except for statements of historical fact, certain information contained herein constitutes forward-looking statements. Forward-looking statements are frequently characterised by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate", and other similar words, or statements that certain events or conditions "may" or "will" occur. Forward-looking statements are based on the opinions and estimates of management at the date the statements are made, and are based on a number of assumptions and subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. Assumptions upon which such forward-looking statements are based include that all required third party regulatory and governmental approvals will be obtained. Many of these assumptions are based on factors and events that are not within the control of Atalaya and there is no assurance they will prove to be correct. Factors that could cause actual results to vary materially from results anticipated by such forward-looking statements include changes in market conditions and other risk factors discussed or referred to in this report and other documents filed with the applicable securities regulatory authorities. Although Atalaya has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Atalaya undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change except as required by applicable securities laws. The reader is cautioned not to place undue reliance on forward-looking statements.

1. Description of the business

Atalaya is a Cyprus based copper producer with mining interests in Spain. The Company is listed on the AIM market of the London Stock Exchange and on the Toronto Stock Exchange ("TSX").

Proyecto Riotinto, wholly owned by the Company's subsidiary Atalaya Riotinto Minera, S.L.U., is located in Huelva, Spain. The Group operates the Cerro Colorado open-pit mine and its associated processing plant of 9.5Mtpa where copper in concentrate and silver by-product are produced. In December 2017, the Board of the Company approved and announced a project to expand Proyecto Riotinto's throughput capacity to 15Mtpa. The expansion is currently under construction and it is expected to be finalised during 2019.

The Group has an initial 10% stake in Cobre San Rafael, S.L., the owner of Proyecto Touro, as part of an earn-in agreement which will enable the Group to acquire up to 80% of the copper project. Proyecto Touro is located in Galicia, north-west Spain.

Management's review

2. Overview of operating results

Proyecto Riotinto

The following table presents a summarised statement of operations of Proyecto Riotinto for the three and six months ended 30 June 2018 and 2017.

Units expressed in accordance with the international system of units (SI)	Unit	Three months ended 30 June 2018	Three months ended 30 June 2017	Six months ended 30 June 2018	Six months ended 30 June 2017
Ore mined	t	2,592,354	2,265,785	5,151,555	4,578,375
Ore processed	t	2,490,483	2,154,907	4,697,344	4,351,206
Copper ore grade	%	0.48	0.49	0.48	0.49
Copper concentrate grade	%	22.16	22.77	22.20	22.34
Copper recovery rate	%	87.31	85.16	87.92	84.90
Copper concentrate	t	47,140	39,772	89,568	79,954
Copper contained in concentrate	t	10,446	9,058	19,887	17,863
Payable copper contained in concentrate	t	9,975	8,660	18,991	17,063
Cash cost*	\$/lb payable	1.88	1.88	2.07	1.77
All-in sustaining cost*	\$/lb payable	2.34	2.22	2.49	2.12

(* Refer to Section 5 of this Management's Review

Note: The numbers in the above table may slightly differ among them due to rounding.

Three months operating review

Copper production at Proyecto Riotinto for Q2 2018 has increased to 10,446 tonnes from 9,058 tonnes reported in Q2 2017, and 9,441 tonnes in Q1 2018, representing an increase of 15.3% and 10.6%, respectively.

This quarter's copper production replaces Q1 2018's as the second highest quarterly production on record.

In terms of ore milled, 2.5 million tonnes were processed in the quarter, the highest ever quarterly throughput. Copper head grade was in line with expectations. The increase in copper production during the quarter is mainly attributable to the high volume of ore milled with above-budgeted metallurgical recovery rates, averaging 87.31%. Processing throughput was better than expected mainly due to high utilisation rates.

Mining operations are progressing to plan and at similar levels to previous quarters. On a combined basis, ore, waste and marginal ore amounted to 2.6 million m³ in Q2 2018 versus 3.0 million m³ in Q1 2018. After the heavy rains in March, mining operations returned to the original mining plan from May onwards.

As part of the Company's continuous improvements programme, a cone crusher has been installed and it will operate as a secondary crusher. It is expected to become operational during Q3 2018. As previously reported, modifications to current screening and crushing arrangements are under evaluation as part of a de-bottlenecking exercise. Structural steel fabrication of the dome to cover the coarse ore stockpile has been completed and fully delivered to site. Construction is expected to be completed before the end of Q3 2018.

Dewatering of the Atalaya pit is ongoing as previously reported. Dewatering of Cerro Colorado pit after heavy rains in March was completed in mid-May 2018 with pumping systems now on standby.

On-site concentrate inventories at the end of the quarter were approximately 2,089 tonnes. All concentrate in stock at the beginning of the quarter and produced during the quarter was delivered to the port at Huelva.

A NI 43-101 compliant technical report on an updated resources and reserves estimate for Proyecto Riotinto was released on 9 July 2018. Highlights of the report include a 29% increase in open pit proven and probable mineral reserves at Cerro Colorado and a 21% increase in contained copper, with a reduction in the average strip ratio from 1.95:1 to 1.43:1.

Exploration focus has now turned to the underground potential of the remaining massive sulphides below Atalaya pit. A drilling campaign is now underway and is expected to last until June 2019.

Management's review

(All amounts in Euro thousands unless otherwise stated)
For the three and six months to 30 June 2018 and 2017 - (Unaudited)

2. Overview of operational results (continued)

Six months operating review

Production of copper contained in concentrate during H1 2018 was 19,887 tonnes, compared with 17,863 tonnes in the same period of 2017. Payable copper in concentrates was 18,991 tonnes compared with 17,063 tonnes of payable copper in H1 2017.

Ore mined in H1 2018 was 5,151,555 tonnes compared to 4,578,375 tonnes during H1 2017. Ore processed was 4,697,344 tonnes versus 4,351,206 tonnes in H1 2017.

Ore grade during H1 2018 was 0.48% Cu compared with 0.49% Cu in H1 2017. Copper recovery was 87.92% versus 84.90% in H1 2017. Concentrate production amounted to 89,568 tonnes significantly above H1 2017 production of 79,954 tonnes.

Expansion to 15Mtpa at Proyecto Riotinto

The expansion project to 15 Mtpa is progressing according to schedule with engineering heading to completion and site construction activities picking up. Overall progress completion at the end of the reporting quarter was 41%. Procurement has progressed to 38% completed and engineering to 82% completed. Earthworks are well advanced and are expected to be completed by mid-Q3 2018. Civil engineering works are progressing with main activities now concentrated on the new SAG mill area. Structural steel works are ongoing in the flotation area. Installation of mechanical equipment has started in the concentrate handling area. The milling area is the critical path to completion. The expansion project is scheduled for mechanical completion at the end of Q2 2019.

Updated technical report at Proyecto Riotinto

A NI 43-101 compliant independent technical report on an updated resources and reserves estimate for Proyecto Riotinto was released on 9 July 2018. This was based on the mined surface of the open pit as at 31 December 2017. Highlights of the report include a 29% increase in open pit proven and probable mineral reserves at Cerro Colorado and a 21% increase in contained copper, with a reduction of the average strip ratio from 1.95:1 to 1.43:1. The life of mine under report is 13.8 years, taking into account the current expansion project to 15 Mtpa which is scheduled for mechanical completion at the end of Q2 2019.

In accordance with the Group's existing accounting policy, the updated reserves and resources statement has been taken into account in determining the amount of deferred mining cost (i.e. stripping costs capitalised) and depreciation from 1 January 2018, the date to which the independent technical report relates. Changes to deferred mining cost and depreciation have been fully reflected in Q2 2018 as changes in estimates, and amounts reported in Q1 2018 have accordingly not been restated.

The lower average strip ratio has resulted in a lower capitalisation threshold for stripping costs from 1 January 2018, and this has resulted in a lower cash cost reported in Q2 2018. AISC has not been affected, as this already includes all mining costs whether or not deferred.

All mining assets at Proyecto Rio Tinto are depreciated over the life of mine using a unit of production schedule. Current production levels do not yet reflect the expansion project which is ongoing, and hence applying the updated production profile and increased reserves under the technical report has resulted in a lower amount of depreciation charge from 1 January 2018 reflected in the Q2 2018 results, which will increase when the expanded production levels come on stream during 2019.

Proyecto Touro

Permitting of Proyecto Touro continues as anticipated with good progress made on addressing additional studies from the regional administration. During the quarter, efforts were concentrated on progressing detailed reports to address certain project improvements and recommendations from the public hearing process. These reports, including those received recently, are now expected to be submitted to the authorities before the end of Q3 2018.

During the quarter, the Company announced the completion of a pre-feasibility study ("PFS") for the proposed open pit mine and concentrator at Proyecto Touro. The PFS report was prepared within the guidances set out in the Canadian Instrument NI 43-101. Highlights of the PFS report are:

- 392,000 tonnes of contained copper in P&P reserves;
- Average yearly production of 30,000 tonnes copper and 70,000 ounces of silver in concentrate;
- Pre-production capital expenditure of \$165 million;
- All-in sustaining costs of US\$1.85/lb of payable Cu net of silver credits; and
- NPV post-tax at 8% discount rate of \$180 million using long term copper price of US\$3.00/lb.

Management's review

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

3. Outlook

The forward-looking information contained in this section is subject to the risk factors and assumptions contained in the cautionary statement on forward-looking statements included in the introduction note of this report.

Operating guidance

Proyecto Riotinto operating guidance for 2018 remains as follows:

	Unit	Range 2018
Ore processed	million tonnes	9.6
Contained copper	tonnes	37,000 - 40,000

Copper head grade for 2018 is budgeted to average between 0.47% and 0.50% Cu, with a recovery rate of approximately 84% to 86%. Cash operating costs for 2018 are expected to be in the range of \$2.15/lb – \$2.30/lb, and AISC is estimated to be in the range of \$2.50/lb – \$2.60/lb.

4. Overview of the financial results

The following table presents summarised consolidated income statements for the three and six months ended 30 June 2018, with comparatives for the three and six months ended 30 June 2017.

	Three months ended 30 June 2018	Three months ended 30 June 2017 *restated	Six months ended 30 June 2018	Six months ended 30 June 2017 *restated
(Euro 000's)				
Sales	48,867	53,426	101,543	79,074
Total operating costs	(27,986)	(41,014)	(64,412)	(52,522)
Corporate expenses	(1,000)	(220)	(2,053)	(1,628)
Exploration expenses	(214)	(313)	(413)	(446)
Care and maintenance expenditure	(281)		(281)	
Other income	-	1	-	5
EBITDA	19,386	11,880	34,384	24,483

Net foreign exchange gain/(loss)	932	(511)	1,102	(785)
Net finance cost	(112)	(241)	(119)	(490)
Tax charge	(2,294)	(1,312)	(4,565)	(3,179)
	15,702	6,117	24,492	11,814

(* Refer to Note 2.1. (c))

Three months financial review

Revenues for the three month period ended 30 June 2018 amounted to €48.9 million (Q2 2017: €53.4million). Lower revenues, compared with the same quarter in the previous year, were driven by lower volumes of concentrate sold and partially offset by higher realised prices.

During Q2 2018 the Company sold 46,172 tonnes of copper concentrate versus 55,574 tonnes sold in same quarter last year. Realised prices of \$3.12/lb copper during Q2 2018 compared with \$2.61/lb copper in Q2 2017.

All concentrates were sold under offtake agreements in place. The Group did not enter into any hedging agreements during the quarter.

Operating costs for the three month period ended 30 June 2018 amounted to €28.0 million, compared with €41.0 million in Q2 2017. Lower costs during 2018 related to (i) additional cost of sales of €10.0 million in the second quarter of 2017 as a high level of inventory held at 31 March 2017 was sold in the quarter; and (ii) a €3.0 million deferred mining cost capitalisation adjustment as per the updated strip ratio of 1:1.43.

Management's review

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

4. Overview of the financial results (continued)

Cash costs of \$1.88/lb payable copper during Q2 2018 were the same as in Q2 2017. All-in sustaining costs in the reporting quarter were \$2.34/lb payable copper compared with \$2.22/lb payable copper in Q2 2017.

Sustaining capex for Q2 2018 amounted to €2.5 million compared with €2.2 million in Q2 2017 and relates to continuous development programmes at the tailings storage facilities, optimisation of the flotation circuit and other processing systems.

Corporate expenses amounting to €1.0 million (Q2 2017: €0.2 million) include non-operating costs of the Cyprus office, corporate legal and consultancy costs, on-going listing costs, officers and directors' emoluments, and salaries and related costs of the corporate office.

Exploration costs at Proyecto Riotinto for the three month period ended 30 June 2018 amounted to €0.2 million compared with €0.3 million in Q2 2017. All exploration costs at Proyecto Touro are capitalised.

Care and maintenance expenditures relate to the non-capitalised administration costs of Proyecto Touro.

EBITDA for the three months ended 30 June 2018 amounted to €19.4 million as compared to Q2 2017 of €11.9 million.

The main item below the EBITDA line is depreciation and amortisation of €2.2 million (Q2 2017: €3.7 million). Net financing costs for Q2 2018 amounted to €112k compared with €241k in Q2 2017.

Six months financial review

Revenues for the six-month period ended 30 June 2018 amounted to €101.5 million (H1 2017: €79.1 million).

Copper concentrate production during the six month period ending 30 June 2018 was 89,568 tonnes (H1 2017: 79,954 tonnes) 94,854 tonnes of copper concentrates were sold in the period (H1 2017: 77,677 tonnes). Inventories of concentrates as at the reporting date were 2,089 tonnes (31 Dec 2017: 4,797 tonnes).

Realised copper prices for H1 2018 were \$3.08/lb copper compared with \$2.55/lb copper in the same period of 2017. Concentrates were sold under offtake agreements in place. The Company did not enter into any hedging agreements in 2018.

Operating costs for the six-month period ended 30 June 2018 amounted to €64.3 million, compared with €52.5 million in H1 2017. Higher costs in 2018 were directly attributable to higher copper production.

Cash costs of \$2.07/lb payable copper during H1 2018 compares with \$1.77/lb payable copper in the same period last year. The higher costs were due to (i) €1 million lower capitalisation of deferred mining costs in H1 2018; and (ii) higher maintenance and technical services. All-in sustaining costs in the reporting quarter were \$2.49/lb payable copper compared with \$2.12/lb payable copper in H1 2017. The higher AISC compared with H1 2017 results from increased cash costs together with higher sustaining capex.

Sustaining capex for the six month period amounted to €5.2 million, compared with €2.7 million in the same period in the previous year. Sustaining capex was attributed to continuous development programmes at the tailings storage facilities, optimisation of the flotation circuit and other processing systems.

Corporate costs for the first six month of 2018 were €2.1 million, compared with €1.6 million in H1 2017. Corporate costs mainly include Company overhead expenses.

Exploration costs related to Proyecto Riotinto for the six-month period ended 30 June 2018 amounted to €0.4 million, compared with €0.5 million in H1 2017.

EBITDA for the six months ended 30 June 2018 amounted to €34.4 million, compared with €24.5 million in H1 2017.

Depreciation and amortisation amounted to €6.3 million for the six-month period ended 30 June 2018 (H1 2017: €8.2 million). Lower depreciation was mainly driven by an extension of the life of mine as per updated reserves and resources report

Net finance costs for H1 2018 amounted to €0.1 million (H1 2017 €0.5 million).

Management's review

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

4. Overview of the financial results (continued)

Realised copper prices

The average prices of copper for the three and six months ended 30 June 2018 and 2017 are summarised below:

(USD)	Three months ended 30 June 2018	Three months ended 30 June 2017	Six months ended 30 June 2018	Six months ended 30 June 2017
Realised copper price per lb	3.12	2.61	3.08	2.55
Market copper price per lb (period average)	3.12	2.65	3.14	2.61

Realised copper prices for the reporting period noted above have been calculated using payable copper and including provisional invoices and final settlements of quotation periods ("QPs") together. Lower realised prices than market averages during the six months ended 30 June 2018, are mainly due to the final settlement of invoices whose QP was fixed in the previous quarter due to a short open period when copper prices were lower. The realised price of shipments during the quarter excluding QP was approximately \$3.15/lb.

The Group had no hedges during the six month period ended 30 June 2018.

5. Non-GAAP Measures

Atalaya has included certain non-IFRS measures including "EBITDA", "Cash Cost per pound of payable copper", "All In Sustaining Costs" ("AISC") and "realised prices" in this report. Non-IFRS measures do not have any standardised meaning prescribed under IFRS, and therefore they may not be comparable to similar measures presented by other companies. These measures are intended to provide additional information and should not be considered in isolation or as a substitute for indicators prepared in accordance with IFRS.

EBITDA includes gross sales net of penalties and discounts and all operating costs, excluding finance, tax, impairment, depreciation and amortisation expenses.

Cash Cost per pound of payable copper includes cash operating costs, including treatment and refining charges ("TC/RC"), freight and distribution costs net of by-product credits. Cash Cost per pound of payable copper is consistent with the widely accepted industry standard established by Wood Mackenzie and is also known as the C1 cash cost.

AISC per pound of payable copper includes C1 Cash Costs plus royalties and agency fees, expenditures on rehabilitation, stripping costs, exploration and geology costs, corporate costs and sustaining capital expenditures.

During the final quarter of 2017, Atalaya carried out an exhaustive analysis of the methodology applied to the C1 cash cost and AISC. As a result of the analysis, management changed the methodology used when calculating C1 and AISC in the first three quarters of 2017. A full reconciliation including Q1 and Q2 2017 is included in section iii of the performance review in the 2017 Annual Report.

Realised price per pound of payable copper is the value of the copper payable included in the concentrate produced including the penalties, discounts, credits and other feature governed by the offtake agreements of the Group and all discounts or premium provided in commodity hedge agreements with financial institutions, expressed in USD per pound of payable copper. Realised price is consistent with the widely accepted industry standard definition.

Management's review

(All amounts in Euro thousands unless otherwise stated)
For the three and six months to 30 June 2018 and 2017 - (Unaudited)

6. Liquidity and capital resources

Atalaya monitors factors that could impact its liquidity as part of Atalaya's overall capital management strategy. Factors that are monitored include, but are not limited to, the market price of copper, foreign currency rates, production levels, operating costs, capital and administrative costs.

The following is a summary of Atalaya's cash position and cash flows as at 30 June 2018 and 31 December 2017.

Liquidity information

(Euro 000's)	30 June 2018	31 December 2017
Unrestricted cash and cash equivalents	51,123	42,606
Restricted cash	250	250
Working capital surplus	32,747	22,137

Unrestricted cash and cash equivalents as at 30 June 2018 increased to €51.1 million from €42.6 million at 31 December 2017. The increase in cash balances is the result of net cash flow incurred in the period. Cash balances are unrestricted and include balances at operational and corporate level, including the proceeds of the capital raise in Q4 2017.

Restricted cash remains at €0.3 million as at 30 June 2018 and mainly relates to deposit bond guarantees.

As of 30 June 2018, Atalaya reported a working capital surplus of €32.7 million, compared with a working capital surplus of €22.1 million at 31 December 2017. The surplus results from the equity raised in Q4 2017 and the cash generated by Proyecto Riotinto. The main liability of the working capital is trade payables. The principal trade payable account relates to the mining contractor where the Group has reached certain agreements to reduce the balance progressively during 2018.

In June 2017, the Group completed repayment of €16.9 million to the Social Security's General Treasury in Spain. The debt liability was incurred by the former owners of the assets. Repayment was completed according to the agreed repayment schedule.

In 2016, the Group entered into a US\$14.0 million copper concentrate prepayment agreement with Transamine Trading, S.A. an independent and privately owned commodity trader company based in Geneva. The duration of the prepayment was from 1 January 2017 to 31 December 2018 with terms at market conditions and the settlement was agreed to be paid through deductions from payments received for each shipment. On 15 September 2017, the Group fully settled the prepayment ahead of schedule. During December 2017, the Group decided not to extend the contract on the same terms during 2018 as permitted under the original agreement.

Overview of the Group's cash flows

(Euro 000's)	Three months ended 30 June 2018	Three months ended 30 June 2017	Six months ended 30 June 2018	Six months ended 30 June 2017
Cash flows from/(used) operating activities	10,837	(4,286)	29,214	9,989
Cash flows used in investing activities	(12,549)	(3,844)	(21,290)	(9,243)
Cash flows from financing activities	545	-	593	-
Net (decrease)/increase in cash and cash equivalents	(1,167)	(8,130)	8,517	746

Three month cash flows review

Cash and cash equivalents decreased by €1.2 million during the three months ended 30 June 2018. This was due to the net results of cash from operating activities amounting to €10.9 million, cash used in investing activities amounting to €12.5 million and cash from financing activities amounting to €0.5 million.

Management's review

(All amounts in Euro thousands unless otherwise stated)
For the three and six months to 30 June 2018 and 2017 - (Unaudited)

6. Liquidity and capital resources (continued)

Cash generated from operating activities before working capital changes was €20.4 million. Atalaya decreased its trade receivables in the period by €0.5 million, as well as its inventory levels by €0.3 million and its trade payables by €8.8 million.

Investing activities during the quarter consumed €12.5 million, relating mainly to the expansion project Capex and Rumbo Royalty Buyout and deferred mining costs capitalised.

Six months cash flows review

Cash and cash equivalents increased by €8.5 million during the six months ended 30 June 2018. This was due to cash from operating activities amounting to €29.2 million, cash used in investing activities amounting to €21.3 million and cash from financing activities amounting to €0.6 million.

Cash generated from operating activities before working capital changes was €35.6 million. Atalaya decreased its trade payables in the period by €8.7 million, as well as its inventory levels by €4.3 million and increased its trade receivable balances by €0.5 million.

Investing activities during the six-month period amounted to €21.3 million, relating mainly to the deferred mining costs, expansion project Capex and Rumbo Royalty Buyout.

Foreign exchange

Foreign exchange rate movements can have a significant effect on Atalaya's operations, financial position and results. Atalaya's sales are denominated in U.S. dollars ("USD"), while Atalaya's operating expenses, income taxes and other expenses are denominated in Euros ("EUR"), and to a much lesser extent in British Pounds ("GBP").

Accordingly, fluctuations in the exchange rates can potentially impact the results of operations and carrying value of assets and liabilities on the balance sheet.

During the three and six months ended 30 June 2018, Atalaya recognised a foreign exchange profit of €0.9 million and €1.1 million respectively. Foreign exchange losses mainly related to change in the period end EUR and USD conversion rates, as all sales are cashed and occasionally held in USD.

The following table summarises the movement in key currencies versus the EUR:

	Three months ended 30 June 2018	Three months ended 30 June 2017	Six months ended 30 June 2018	Six months ended 30 June 2017
Average rates for the periods				
GBP – EUR	0.8762	0.8611	0.8798	0.8606

In February 2017, the Group entered into certain foreign exchange hedging contracts to offset the agreements in force as at 31 December 2016. During H1 2018, Atalaya did not have any currency hedging agreements.

Further information on the hedging agreements is disclosed in the unaudited, condensed interim consolidated financial statements that follow (Note 15).

7. Rumbo royalty and Deferred consideration

Rumbo royalty

In July 2012, Atalaya Riotinto Minera, S.L. signed a royalty agreement with Rumbo 5 Cero, S.L. ("Rumbo"), at which Rumbo was entitled to receive a royalty payment of up to US \$250,000 per quarter if the average copper sales price or LME price for the period is equal to or above \$2.60/lb for ten years up to a maximum amount of US\$10,000,000. As the average copper price for the third and fourth quarter of 2017 was above \$2.60/lb, the company was obligated to pay a royalty amounted to US\$500,000 to Rumbo. On 8 February 2018, the companies agreed to satisfy this payment through an issuance of 192,540 new ordinary shares at GB £7.5p.

On 5 April 2018, the Company signed a contract with Rumbo to purchase the remaining royalty agreement for a total consideration of US\$4,750,000 to be paid through the issuance of 1,600,907 new ordinary shares of GB £7.5p.

Management's review

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

7. Rumbo royalty and Deferred consideration (continued)

Astor Case

On 6 March 2017, judgment in the case (the "Astor Case") brought by Astor Management AG ("Astor") was handed down in the High Court of Justice in London (the "Judgment"). On 31 March 2017, declarations were made by the High Court which gave effect to the Judgment.

In summary, the High Court found that the deferred consideration of €43.8 million (the "Deferred Consideration"), potentially payable to Astor under the master agreement entered into in 2008 between inter alia the Company and Astor (the "Master Agreement"), did not start to become payable when permit approval was granted for Proyecto Riotinto. In addition, the intra-group loans through which funding for the restart of mining operations were made available to the Company's subsidiary, Atalaya Riotinto Minera S.L. did not constitute a "Senior Debt Facility" so as to trigger payment of the Deferred Consideration. Accordingly, the first instalment of the Deferred Consideration has not fallen due.

Astor failed to show that there had been a breach of the all reasonable endeavours obligation contained in the Master Agreement to obtain a senior debt facility or that the Group had acted in bad faith in not obtaining a senior debt facility. While the Court confirmed that the Group was not in breach of any of its obligations, the Master Agreement and its provisions remain in place. Accordingly, other than up to US\$10 million a year which may be required for non-Proyecto Riotinto related expenses, Atalaya Riotinto Minera S.L. cannot make any dividend, distribution or any repayment of the money lent to it by companies in the Group until the consideration under the Master Agreement (including the Deferred Consideration) has been paid in full.

As a consequence, the Judgment requires that, in accordance with the Master Agreement, Atalaya Riotinto Minera S.L. must apply any excess cash (after payment of operating expenses, sustaining capital expenditure, any senior debt service requirements and up to US\$10 million (for non-Proyecto Riotinto related expenses)) to pay the consideration due to Astor (including the Deferred Consideration and the amount of €9.1 million payable under the loan assignment agreement between the parties) early. The Court confirmed that the obligation to pay consideration early out of excess cash does not apply to the up-tick payments of up to €15.9 million (the "Up-tick Payments") and the Judgment notes that the only situation in which the Up-tick Payments could ever become payable is in the unlikely event that mining operations stop at Proyecto Riotinto and a senior debt facility is then secured for a sum sufficient to restart mining operations. Accordingly, the Group has recorded the liability of €53 million.

On 25 April 2017, Atalaya and Astor applied for permission to appeal to the Court of Appeal. On 11 August 2017, the Court of Appeal granted permission to both parties to appeal (although it rejected three of Astor's seven grounds). The Appeal took place on 9 and 10 May 2018 and the Group expects the ruling to be issued in the coming months.

More details on the Astor Case are included in Note 14 of the unaudited, condensed, interim, consolidated financial statements that follow.

8. Risk factors

Due to the nature of Atalaya's business in the mining industry, the Group is subject to various risks that could materially impact the future operating results and could cause actual events to differ materially from those described in forward-looking statements relating to Atalaya. Readers are encouraged to read and consider the risk factors detailed in Atalaya's audited, consolidated financial statements for the year ended 31 December 2017.

9. Critical accounting policies, estimates and accounting changes

The preparation of Atalaya's Financial Statements in accordance with IFRS requires management to make estimates and assumptions that affect amounts reported in the Financial Statements and accompanying notes. There is a full discussion and description of Atalaya's critical accounting policies in the audited consolidated financial statements for the year ended 31 December 2017.

Notes to the condensed interim consolidated financial statements

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

1. Incorporation and summary of business

Country of incorporation

Atalaya Mining Plc (the "Company") was incorporated in Cyprus on 17 September 2004 as a private company with limited liability under the Companies Law, Cap. 113 and was converted to a public limited liability company on 26 January 2005. Its registered office is at 1 Lampousa Street, Nicosia, Cyprus.

The Company was listed on AIM of the London Stock Exchange in May 2005 under the symbol ATYM and on the TSX on 20 December 2010 under the symbol AYM. The Company continued to be listed on AIM and the TSX as at 30 June 2018.

Additional information about Atalaya Mining Plc is available at www.atalayamining.com as per requirement of AIM rule 26.

Change of name and share consolidation

Following the Company's Extraordinary General Meeting ("EGM") on 13 October 2015, the change of name from EMED Mining Public Limited to Atalaya Mining Plc became effective on 21 October 2015. On the same day, the consolidation of ordinary shares came into effect, whereby all shareholders received one new ordinary share of nominal value Stg £0.075 for every 30 existing ordinary shares of nominal value Stg £0.0025.

Summary of business

The Company owns and operates through a wholly-owned subsidiary, Proyecto Riotinto, an open-pit copper mine located in the Pyritic belt, in the Andalusia region of Spain, approximately 65 km northwest of Seville. A brownfield expansion of this mine is in progress.

In addition, the Company has a phased earn-in agreement to acquire up to 80% ownership of Proyecto Touro, a brownfield copper project in northwest Spain, which is currently at the permitting stage.

The Company's and its subsidiaries' business is focused on exploring for and developing metals production operations in Europe, with an initial focus on copper.

The strategy is to evaluate and prioritise metal production opportunities in several jurisdictions throughout the well-known belts of base and precious metal mineralisation in Spain and the Eastern European region.

2. Basis of preparation and accounting policies

2.1 Basis of preparation

(a) Overview

The unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). IFRS comprises the standards issued by the International Accounting Standard Board ("IASB"), and IFRS Interpretations Committee ("IFRICs") as issued by the IASB. Additionally, the unaudited condensed consolidated financial statements have also been prepared in accordance with IFRS as adopted by the European Union (EU), using the historical cost convention.

These condensed interim consolidated financial statements are unaudited and include the financial statements of the Company and its subsidiary undertakings. They have been prepared using accounting bases and policies consistent with those used in the preparation of the consolidated financial statements of the Company and the Group for the year ended 31 December 2017. These unaudited condensed interim consolidated financial statements do not include all of the disclosures required for annual financial statements, and accordingly, should be read in conjunction with the consolidated financial statements and other information set out in the Company's 31 December 2017 Annual Report. The accounting policies are unchanged from those disclosed in the annual consolidated financial statements.

The Directors have formed a judgment at the time of approving the unaudited condensed interim consolidated financial statements that there is a reasonable expectation that the Company and the Group have adequate available resources to continue in operational existence for the foreseeable future.

Notes to the condensed interim consolidated financial statements

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

2. Basis of preparation and accounting policies (continued)

(b) Going concern

These unaudited condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes that the Group will realise its assets and discharge its liabilities in the normal course of business. Management has carried out an assessment of the going concern assumption and has concluded that the Group will generate sufficient cash and cash equivalents to continue operating for the next twelve months.

(c) 2016 Restatement

Deferred consideration (Note 14)

At the end of 2017 the discount rate used to value the liability for the deferred consideration was re-assessed to apply a risk free rate as required by IAS 37. The discounted amount, when applying this discount rate, was not considered significant and the Group has measured the liability for the deferred consideration on an undiscounted basis. The value of the liability is in line with the court ruling issued on 6 March 2017. Full details of the restatement to 2016 full year comparatives are set out in the audited, consolidated financial statements for the year ended 31 December 2017 available from the Atalaya website at www.atalayamining.com.

The Q2 and H1 2017 comparatives have been restated in line with this re-assessment as follows:

(Euro 000's)	Q2 2017 as reported	Adjustments	Q2 2017 as restated	H1 2017 as reported	Adjustments	H1 2017 as restated
Income statement						
Mine site depreciation and amortization	(3,740)	41 ¹	(3,699)	(8,132)	(80) ¹	(8,212)
Gross margin	8,692		8,733	18,450		18,370
Operating profit	8,139		8,180	16,343		16,263
Finance costs	(846)	605 ¹	(241)	(1,679)	1,189 ¹	(490)
Profit before tax	6,783		7,429	13,884		14,993
Tax charge	(1,109)	(203) ¹	(1,312)	(2,967)	(212) ¹	(3,179)
Basic earnings per share	4.9		5.2	9.4		10.1
Fully diluted earnings per share	4.8		5.2	9.2		10.0

- (1) The discount rate was re-assessed considering a risk free rate for the relevant periods as required by IAS 37. Discounting the provision using the risk free rate would not result in a significant impact to the financial statements and the Group has measured the liability on an undiscounted basis. The amount of the provision is in line with the court ruling. Finance costs have been revised to exclude the unwinding of discounts and amortisation charges based on the restated carrying amount of Intangible assets

2.2 Fair value estimation

The fair values of the Company's financial assets and liabilities approximate their carrying amounts at the reporting date. The fair value of financial instruments traded in active markets, such as publicly traded trading and available-for-sale financial assets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Company is the current bid price. The appropriate quoted market price for financial liabilities is the current ask price.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Company uses a variety of methods, such as estimated discounted cash flows, and makes assumptions that are based on market conditions existing at the reporting date.

Notes to the condensed interim consolidated financial statements

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

2. Basis of preparation and accounting policies (continued)

2.2 Fair value estimation (continued)

Fair value measurements recognised in the consolidated statement of financial position

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Financial assets (Euro 000's)	Level 1	Level 2	Level 3	Total
30 June 2018				
Available-for-sale financial assets	114	-	-	114
Total	114	-	-	114
31 December 2017				
Available-for-sale financial assets	129	-	-	129
Total	129	-	-	129

2.3 Use and revision of accounting estimates

The preparation of the unaudited condensed interim consolidated financial statements requires the making of estimations and assumptions that affect the recognised amounts of assets, liabilities, revenues and expenses and the disclosure of contingent liabilities. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

2.4 Adoption of new and revised International Financial Reporting Standards (IFRSs)

The Group has adopted all the new and revised IFRSs and International Accounting Standards (IASs) which are relevant to its operations and are effective for accounting periods commencing on 1 January 2018. The adoption of these Standards did not have a material effect on the condensed interim consolidated financial statements.

- IFRS 15 – Revenue from Contracts with Customers and Clarifications to IFRS 15 – Revenue from Contracts with Customers. New standard for recognising revenue (replaces IAS 11, IAS 18, IFRIC 13, IFRIC 15, IFRIC 18 and SIC 31). The Company has adopted IFRS 15 as of January 1, 2018.
- IFRS 9 – Financial Instruments and subsequent amendments. This standard replaces the classification, measurement, recognition and derecognition in accounts of financial assets and liabilities, hedge accounting, and impairment set out in IAS 39 Financial instruments: Recognition and Measurement. The Company has adopted IFRS 9 as of January 1, 2018.
- IFRS 16 – Leases. The new standard on leases that replaces IAS 17, IFRIC 4, SIC-15 and SIC-27. Effective for annual periods beginning on or after 1 January 2019. Early adoption is permitted for entities that apply IFRS 15 at or before the date of initial application of IFRS 16. IFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payment. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard – i.e. lessor continue to classify leases as finance or operating leases. The Company will adopt IFRS 16 as of 1 January 2019.

Notes to the condensed interim consolidated financial statements

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

2. Basis of preparation and accounting policies (continued)

2.5 Critical accounting estimates and judgements

The fair values of the Group's financial assets and liabilities approximate their carrying amounts at the reporting date. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are unchanged from those disclosed in the annual consolidated financial statements.

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

3. Business and geographical segments

Business segments

The Group has only one distinct business segment, being that of mining operations, mineral exploration and development. Copper concentrates produced by the Group are sold to three offtakers as per the relevant offtake agreement (Note 17.3).

Geographical segments

The Group's mining activities are located in Spain. The commercialisation of the copper concentrates produced in Spain is carried out in Cyprus. Corporate costs and administration costs are based in Cyprus. Intercompany transactions within the Group are on arm's length basis in a manner similar to transaction with third parties.

(1) Permits include an amount of €5,000,000 that relates to the Touro Project mining rights.

* Refer to Note 2.1. (c)

The useful life of the intangible assets is estimated to be not less than fourteen years from the start of production (the revised Reserves and Resources statement which was announced in July 2016 has increased the life of mine to 16 ½ years). In July 2018, the Company announced an updated technical report on the mineral resources and reserves of the Rio Tinto Copper Project. The Report increases the open pit mineral reserves by 29% and stated the life of mine as 13.8 years, considering the on-going expansion of the processing plant.

The ultimate recovery of balances carried forward in relation to areas of interest or all such assets including intangibles is dependent on successful development, and commercial exploitation, or alternatively sale of the respective areas.

The Group conducts impairment testing on an annual basis unless indicators of impairment are not present at the reporting date. In considering the carrying value of the assets at Proyecto Riotinto, including the intangible assets and any impairment thereof, the Group assessed that no indicators were present as at 30 June 2018 and thus no impairment has been recognised.

Goodwill of €9,333,000 arose on the acquisition of the remaining 49% of the issued share capital of Atalaya Riotinto Minera S.L.U. ("ARM") back in September 2008. This amount was fully impaired on acquisition, in the absence of the mining licence back in 2008.

8. Inventories

(Euro 000's)	30 June 2018	31 Dec 2017
Finished products	1,365	4,797
Materials and supplies	7,177	8,003
Work in progress	788	874
	9,330	13,674

Notes to the condensed interim consolidated financial statements

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

8. Inventories (continued)

Materials and supplies relate mainly to machinery spare parts. Work in progress represents ore stockpiles, which is ore that has been extracted and is available for further processing.

As of 30 June 2018, copper concentrate produced and not sold amounted to 2,089 tonnes. Accordingly, the inventory for copper concentrate was €1.4 million (31 Dec 2017: €4.8 million).

9. Trade and other receivables

	30 June 2018	31 Dec 2017
(Euro 000's)		
Non-current		
Deposits	218	212
	<u>218</u>	<u>212</u>
Current		
Trade receivables	15,376	12,113
Receivables from related parties (Note 17.3 ii))	-	56

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

10. Share capital and share premium (continued)

Authorised capital

The Company's authorised share capital is 200,000,000 ordinary shares of Stg £0.075 each.

Issued capital

2018

- On 13 February 2018, the Company issued 192,540 new ordinary shares of 7.5p to Rumbo at a price of 186.7p, thus creating a share premium of €410,146.
- On 13 February 2018, the Company was notified that certain employees exercised options over 29,000 ordinary shares of 7.5p at a price of 144p, thus creating a share premium of €44,576.
- On 5 April 2018, the Company signed with Rumbo a contract to purchase the whole royalty agreement for a total consideration of US\$4,750,000 to be paid through the issuance of 1,600,907 new ordinary shares of 7.5p. After this transaction the share premium increased by €3,887,128. On 13 April 2018, the new ordinary shares were issued to Rumbo.
- On 1 June 2018, 262,569 warrants were exercised at 142.5p per ordinary share. Hence, 262,569 ordinary shares of 7.5p were issued, thus creating a share premium of €405,087.

Warrants

The Company has issued warrants to advisers to the Group. Warrants expire three years after the grant date and have exercise price Stg £1.425.

Details of share warrants outstanding as at 30 June 2018:

	Number of warrants
Outstanding options at 1 January 2018	262,569
- Exercised during the reporting period	<u>(262,569)</u>
Outstanding options at 30 June 2018	<u>-</u>

On 1 June 2018, the Company has received notification for the exercise of warrants over 262,569 ordinary shares of 7.5p in the Company at an exercise price of 142.5p per share. As a result, the Company has received proceeds of GB£374,160.83 (Note 10 d)).

11. Other reserves

Notes to the condensed interim consolidated financial statements

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

11. Other reserves (continued)

Share options

During the six month period there were no options granted to either employees or directors.

In general, option agreements contain provisions adjusting the exercise price in certain circumstances including the allotment of fully paid ordinary shares by way of a capitalisation of the Company's reserves, a sub division or consolidation of the ordinary shares, a reduction of share capital and offers or invitations (whether by way of rights issue or otherwise) to the holders of ordinary shares.

Details of share options outstanding as at 30 June 2018:

	Number of share options 000's
Outstanding options at 1 January 2018	1,400
- Exercised during the reporting period	(29)
- Cancelled during the reporting period	(58)

13. Provisions (continued)

(Euro 000's)	30 June 2018	31 Dec 2017
Non-current	6,714	5,727
Current	-	-
Total	6,714	5,727

Rehabilitation provision

Rehabilitation provision represents the accrued cost required to provide adequate restoration and rehabilitation upon the completion of production activities. These amounts will be settled when rehabilitation is undertaken, generally over the project's life.

The discount rate used in the calculation of the net present value of the provision as at 30 June 2018 was 1.87%, which is the 15-year Spain Government Bond rate (31 December 2017: 1.87%, which is the 15-year Spain Government Bond rate). An inflation rate of 1.5% is applied on annual basis.

Legal provision

The Group has been named a defendant in several legal actions in Spain, the outcome of which is not determinable as at 30 June 2018. Management has reviewed individually each case and made a provision of €193 thousand for these claims, which has been reflected in these unaudited condensed interim consolidated financial statements.

14. Deferred consideration

In September 2008, the Group moved to 100% ownership of ARM (and thus full ownership of Proyecto Riotinto) by acquiring the remaining 49% of the issued capital of ARM. At the time of the acquisition, the Group signed a Master Agreement (the "Master Agreement") which included deferred consideration of €43.8 million (the "Deferred Consideration") and potential up-tick payments of up to €15.9 million depending on the price of copper (the "Up-tick Payment"), in consideration of (a) all parties accepting the legal structure of ARM (formerly Emed Tartessus); (b) the validity of various agreements entered into prior to the Master Agreement; and (c) the provision of indemnities by Astor and its agreement not to pursue litigation.

The obligation to pay the Deferred Consideration and the Up-tick Payments is subject to the satisfaction of the following conditions (the "Conditions"): (a) all authorisations to restart mining activities in Proyecto Riotinto having been granted by the Junta de Andalucía ("Permit Approval"); and (b) the Group securing a senior debt finance facility for a sum sufficient to restart mining operations at Proyecto Riotinto ("Senior Debt Facility") and being able to draw down funds under the Senior Debt Facility. At the time of acquisition, the possible outcome for the obligation to pay the deferred consideration could not be determined.

Subject to satisfaction of the Conditions, the Deferred Consideration and the Up-tick Payments are payable over a period of six or seven years (the "Payment Period"). In addition to satisfaction of the Conditions, the Up-tick Payments are only payable if, during the relevant period, the average price of copper per tonne is US\$6,614 or more (US\$3.00/lb).

The Company also entered into a credit assignment agreement with a related company of Astor, Shorthorn AG, pursuant to which the benefit of outstanding loans was assigned to the Company in consideration for the payment of €9.1 million to Shorthorn (the "Loan Assignment"). Payment under the Loan Assignment is also subject to satisfaction of the Conditions and is payable in instalments over the Payment Period.

As security, inter alia, for the obligation to pay the Deferred Consideration, the Up-tick Payments and the Loan Assignment to Astor, Atalaya Minasderiotinto Project (UK) Limited has granted pledges over the issued capital of ARM and the Company has provided a parent company guarantee.

As at the date of this report, the Permit Approval condition has been satisfied. However, the Group has not entered into arrangements in connection with a Senior Debt Facility and, in the absence of drawdown of funds by the Group pursuant to a Senior Debt Facility, the Conditions have not been satisfied.

On 6 March 2017, judgment in the case brought by ("Astor Case") was handed down in the High Court of Justice in London (the "Judgment"). On 31 March 2017, declarations were made by the High Court which give effect to the Judgment.

In summary, the High Court found that the Deferred Consideration did not start to become payable when Permit Approval was granted. In addition, the intra-group loans by which funding for the restart of mining operations was made available to ARM did not constitute a Senior Debt Facility so as to trigger payment of the Deferred Consideration. Accordingly, the first instalment of the Deferred Consideration has not fallen due.

Astor failed to show that there had been a breach of the all reasonable endeavours obligation contained in the Master Agreement to obtain a Senior Debt Facility or that the Group had acted in bad faith in not obtaining a Senior Debt Facility.

14. Deferred consideration (continued)

While the Court confirmed that the Group was not in breach of any of its obligations, the Master Agreement and its provisions remain in place. Accordingly, other than up to US\$10.0 million a year which may be required for non-Proyecto Riotinto related expenses, ARM cannot make any dividend distribution or any repayment of the money lent to it by companies in the Group until the consideration under the Master Agreement (including the Deferred Consideration) has been paid in full.

As a consequence, the Judgment requires that, in accordance with the Master Agreement, ARM must apply any excess cash (after payment of operating expenses, sustaining capital expenditure, any senior debt service requirements and up to US\$10.0 million (for non-Proyecto Riotinto related expenses)) to pay the consideration due to Astor (including the Deferred Consideration and the amount of €9.1 million payable under the Loan Assignment) early. The Court confirmed that the obligation to pay consideration early out of excess cash does not apply to the Up-tick Payments and the Judgment notes that the only situation in which the Up-tick Payments could ever become payable is in the unlikely event that mining operations cease at Proyecto Riotinto and a Senior Debt Facility is then secured for a sum sufficient to restart mining operations.

While the Judgment confirms that the cash sweep provisions of the Master Agreement require ARM to repay the Loan Assignment early, it does not extend to the credit assignment agreement which is governed by Spanish law. The Judgment therefore does not provide any clarity on whether the Conditions have been met in respect of payment of the Loan Assignment and there remains significant doubts concerning the legal obligation to pay the Loan Assignment pursuant to the terms of the credit assignment agreement.

Previously, the Group had not recognised the Deferred Consideration in the initial purchase price allocation on the basis that the payment of the amounts was not considered probable. The High Court judgment of 6 March 2017 required the Group to revisit its estimates and assumption to book the liability.

As at 30 June 2018, the Group has not generated any excess cash and, consequently, no consideration has been paid.

As at the reporting date, the Group has presented the deferred consideration in the consolidated and standalone financial statements to reflect the Company's best estimate of the liability and the excess cash flows in the future years in the view of the High Court ruling of March 2017 and in line with IAS 37.

The nominal amount of the liability recognised is €53.0 million. In 2017 the discount rate used to measure the liability for the deferred consideration was re-assessed to apply a risk free rate for the relevant periods, as required by IAS 37. The effect of discounting, when applying this risk free rate, was considered insignificant and the Group has measured the liability for the deferred consideration on an undiscounted basis. The value of the liability for the Group and Company is in line with the court ruling issued on 6 March 2017 amounting to €53.0 million and €9.1 million respectively. For details on the restatement of the deferred consideration liability as at 31 December 2017, refer to 2017 Annual Report Note 2.1(c).

On 25 April 2017, Atalaya and Astor applied for permission to appeal to the Court of Appeal. On 11 August 2017 the Court of Appeal granted permission to both parties to appeal (although it rejected three of Astor's seven grounds).

The Appeal took place on 9th and 10th May 2018 and the Group is expecting the ruling in the coming months.

15. Derivative instruments

15.1. Foreign exchange contract

As at 31 December 2016, Atalaya had certain short-term foreign exchange contracts with the following relevant information:

Foreign exchange contracts – Euro/USD

Period	Contract type	Amount in USD	Contract rate	Strike
June 2016 - March 2017	FX Forward - Put	5,000,000	1.0955	n/a
	FX Forward – Call	10,000,000	1.0955	1.0450

The counter parties of the foreign exchange agreements are third parties.

In February 2017, the Group entered into certain foreign exchange hedging contracts to offset the agreements noted above before its expiration date. The contracts were signed with the same financial institution and resulted in a loss of €9,000 which was recorded as financial expense during the quarter.

During H1 2018 the Group did not enter into any foreign exchange hedging contract.

15.2. Commodity contract

During the six months ended 30 June 2018, the Company had not entered into any hedging contract.

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

16. Acquisition, incorporation and disposal of subsidiaries

On 14 February 2018, Atalaya Servicios Mineros, S.L. was incorporated. Atalaya Minaseriotinto Project (UK) Limited is its sole shareholder.

On 18 May 2018, the Company signed the disposal of the wholly-owned subsidiary Georgian Minerals Development Company, Ltd. a company incorporated and existing under the laws of Georgia. Following the disposal, the Company has no presence in Georgia.

17. Related party transactions

The following transactions were carried out with related parties:

17.1 Compensation of key management personnel

The total remuneration and fees of Directors (including Executive Directors) and other key management personnel was as follows:

(Euro 000's)	Three months ended 30 June 2018	Three months ended 30 June 2017	Six months ended 30 June 2018	Six months ended 30 June 2017
Directors' remuneration and fees	144	179	400	359
Share option-based benefits to directors	59	4	66	6
Key management personnel remuneration	88	120	207	213
Share option-based and other benefits to key management personnel	57	13	57	22
	348	316	730	600

17.2 Share-based benefits

The directors and key management personnel have not been granted any options during the six month period ended 30 June 2018 (2017: 900,000 options were granted).

17.3 Transactions with related parties/shareholders

i) Transaction with shareholders

(Euro 000's)	Three months ended 30 June 2018	Three months ended 30 June 2017	Six months ended 30 June 2018	Six months ended 30 June 2017
Trafigura– Sales of goods	8,136	-	17,712	13,008
Orion Mine Finance (Master) Fund I LP ("Orion") – Sales of goods	-	-	-	(4)
	8,136	-	17,712	13,004

XGC was granted an offtake over 49.12% of life of mine reserves as per the NI 43-101 report issued in September 2016. Similarly, Orion was granted an offtake over 31.54% and Trafigura 19.34% respectively of life of mine reserves as per the same NI 43-101 report.

In November 2016, the Group was notified and consented the novation of the Orion offtake agreement as Orion reached an agreement with a third party to transfer the rights over the concentrates. Similarly, in December 2017, XGC notified to the Group the novation of the offtake agreements with a third party.

ii) Period-end balances with related parties

(Euro 000's)	30 June 2018	31 Dec 2017
Receivables from related parties:		
Recursos Cuenca Minera S.L.	-	56
Total (Note 9)	-	56

The above balances bear no interest and are repayable on demand.

Notes to the condensed interim consolidated financial statements

(All amounts in Euro thousands unless otherwise stated)

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

17. Related party transactions (continued)

iii) Period-end balances with shareholders

(Euro 000's)	30 June 2018	31 Dec 2017
Trafigura – Debtor balance	2,076	1,556
Total (Note 9)	2,076	1,556

The above debtor balance arising from sales of goods and other balances bear no interest and is repayable on demand.

18. Contingent liabilities

Judicial and administrative cases

In the normal course of business, the Group may be involved in legal proceedings, claims and assessments. Such matters are subject to many uncertainties, and outcomes are not predictable with assurance. Legal fees for such matters are expensed as incurred and the Group accrues for adverse outcomes as they become probable and estimable.

The Junta de Andalucía notified the Group of another disciplinary proceeding for unauthorised discharge in 2014. The Group submitted the relevant defence arguments on 10 March 2015 but has had no response or feedback from the Junta de Andalucía since the submissions. Based on the time that has lapsed without a response, it is expected that the outcome of this proceedings will also be favourable for the Group. Once the necessary time has lapsed, the Group will ask for the Administrative File to be dismissed.

19. Commitments

There are no minimum exploration requirements at Proyecto Riotinto. However, the Group is obliged to pay municipal land taxes which currently are approximately €235,000 per year in Spain and the Group is required to maintain the Riotinto site in compliance with all applicable regulatory requirements.

Expansion Capex commitments at 30 June 2018 amounted to €38.2 million. Commitments relate to the on-going expansion of the Proyecto Riotinto processing plant.

20. Significant events

Buyout of Rumbo Royalty

Following the statement on 13 February 2018, where Atalaya announced the issuance of new ordinary shares in the Company to satisfy the two first instalments due under the Royalty Agreement, Atalaya agreed with Rumbo to buy the Royalty Agreement for a total consideration of US\$4,750,000 to be paid through the issuance of 1,600,907 new ordinary shares of 7.5p in the Company ("Rumbo Shares"). The shares were issued at the 30-day volume weighted average price (the "Calculation Period") of 211.8p per share and using the average US\$ to GBP exchange rate for the Calculation Period of 1.4008. The Company also agreed to pay the VAT associated with the transaction through a cash payment of US\$997,500 to Rumbo, which is recoverable by Atalaya upon an ordinary course application for a VAT reclaim from the Spanish tax authorities.

Exercise of Warrants and Issue of Equity

In May, Atalaya received notification for the exercise of options over 262,569 ordinary shares of 7.5p in the Company at an exercise price of 142.5p per share. As a result, the Company received proceeds of £374,160.83.

Application was made for the 262,569 shares ("New Ordinary Shares") to be admitted to trading on AIM and the dealings in the New Ordinary Shares commenced on 7 June 2018.

Following the issue of the New Ordinary Shares, the total number of Ordinary Shares in issue is 137,339,126.

For the three and six months to 30 June 2018 and 2017 - (Unaudited)

21. Events after the reporting period

The following events occurred after the reporting period:

- On 9 July 2018, Atalaya announced the completion of a NI 43-101 compliant technical report on an updated resources and reserves estimate for Proyecto Riotinto. Total open pit proven and probable mineral reserves at Cerro Colorado are estimated at 197 Mt grading 0.42% Cu. Main features are:
 - Updated resources and reserves estimate reports a 29% increase in mineral reserves
 - Contained copper increases 21% to 822,000 tonnes
 - NPV post-tax at 8% discount rate of US\$512 million using long term copper price of US\$3.00/lb and life-of-mine average Euro to US dollars exchange rate of €1:\$1.18.
 - Total cash flow of US\$1,207 million
 - Estimated average C1 cash costs of US\$2.10/lb of payable Cu net of silver credits
 - All-in sustaining costs ("AISC") of US\$2.22/lb of payable Cu net of silver credits
 - Development capital expenditure of US\$95 million to increase throughput to 15 Mt/y
 - LOM sustaining capital expenditure of US\$84 million
 - Recoverable copper within P&P open pit reserves is estimated at 696,500 tonnes and 9.4 million ounces of silver
 - Life of Mine ("LOM") of 13.8 years
 - 2019 ramp-up production to 11 Mt/y and 2020 production at 15 Mt/y
 - Average yearly production of 50,000 tonnes of copper and 670,000 ounces of silver in concentrate
 - Reduced strip ratio, waste to ore, of 1.43:1
